MASTERING MEDICARE

Sandi Gaglio is a licensed Senior Health Care Advocate and Medicare Specialist, dedicated to helping seniors and their families make decisions connected to aging. As a Senior Advocate she understands older adults need a place to turn for professional advice.

Sandi speaks from an advocacy standpoint, empowering people by explaining, in simple English, (no legalese!) how to take charge of their own healthcare decisions and be able to talk to their doctors to get the care they need covered properly by Medicare or the individual insurance policy that they have.

Kindness. Compassion. Service. Excellence.
