

# Medicare 2020 and You!

Every year between October 15 and December 7,  
is open enrollment for Medicare.

## What does this mean for you?

This is an opportunity to review and change your Medicare Part D Plan (prescription drugs), enroll or change your Medicare Advantage Plan or purchase a Supplemental Insurance Plan.

## Why Bother?

Premiums, deductibles and formularies may change for your current Prescription Drug Plan. Discover new benefits, such as Adult Day Care Programs, being offered by Medicare Advantage Plans. See if your premium for your Supplemental Plan is staying the same.
